ABSTRACTED-PUB-NO: CN 1263707A

BASIC-ABSTRACT:

NOVELTY - A glyphosate herbicide composition with synergistic activity contains diphenylether compounds and glyphosate or a glyphosate isopropylamide salt and may be made into soluble powder, water-dispersing particles, aqueous emulsion, aqueous solution, wettable powder, or tablets. The diphenylether compounds may be one or two of fluoroglycofen-ethyl, oxyfluorfen, fomesafen, acifluofen sodium, etc.

ADVANTAGE - A high and quick effect, a broad spectrum of activity, low cost, less pollution and low dosage.
